

Canberra & Sydney Workshops

The Universal Formula for Life

1-day workshop Canberra Saturday 19th June - Sydney 26th & 27th June 2004

Explore hidden mysteries and discover how our human body is in resonance with the Living Mathematics of Nature.

Find out how to accomplish complex and rapid calculations... in your head. Most people are visual and have the ability to tap into 'Pattern Recognition' which is the key to rapid mental calculation.

Lost Secrets of the PHI Code

1-day workshop Canberra Sunday 20th June - Sydney 3rd July 2004

Generate more from less; discover secret codes concealed in the GAYATRI MANTRA, the most famous Eastern prayer for Enlightenment.

Discover Sacred Geometries that are invisibly constructed and nested within the Heart, connecting us to all Memory of all Universes.

Embrace part of the ascension process already morphologically and geometrically encoded into our bio-magnetic and bio-electrical fields.

MatheMagics for Teens

1-day workshop Sydney 4th July 2004

A fun and interactive learning environment where children learn to complete complex and rapid calculations without pen, paper or calculator.

The Universal Formula for Life:

Due to an immense response from people all over the world, we know that there is a great demand to know more about the Magic of Vedic Mathematics. Jain wrote an article: VEDIC MATHEMATICS REDISCOVERED for the Nexus Magazine, Oct/Nov issue 2003, and it has awakened many people to start questioning all the missing gaps and insufficiencies in the current mathematics curriculum.

Do you or your children really understand the fragmented and confusing mathematical data taught in schools? Would you be interested in another method that boosts confidence and increase memory skills? After this course of study for adults... and in separate workshops for teens... you will never multiply, divide or add in the same manner again. And no more Times Tables!

Jain will give you an understanding of the 16 basic Sutras or 'Word Formula' which can solve all known mathematical problems by using an ancient yet simple system of MENTAL, ONE LINE ARITHMETIC, used extensively by the Hindus more than 2,500 years ago.

In 1958 this system was reconstructed by Bharati Krsna Tirthaji (1884-1960, aka Shankarcharya of Puri) who was invited by Paramahansa Yogananda to take this knowledge, for the first time, to the western world. The Beatle's guru: Maharishi Mahesh Yogi, who introduced Transcendental Meditation to the west, was also a student of this master and currently teaches this system in India in the spiritual Maharishi schools, whose teenage students are highly distinguished mathematical geniuses.

Learn also how the Hindu Invention of Zero (and the decimal system) led to modern technological advancements.

The brain is a mental muscle and needs to be exercised. In this workshop you will find out how to accomplish rapid calculations, mentally. No more Calculators which make the brain lazy. Jain predicts that if we continue to teach children with an over-emphasis of using calculators in the class-room, over a 20 year period, the Global Brain will deteriorate.

Lost Secrets of the PHI Code:

A fascinating day that will help you to remember this Lost Secrets of the PHI CODE that is already morphologically and geometrically encoded in your bio-magnetic and bio-electrical fields. Ultimately, this Pythagorean Knowledge is not an intellectual process, but rather that these essential geometries are invisibly constructed and nested within the Heart as the Centre of a greater Galactic Grid connecting us to all Memory of all Universes and Atomic Levels.

Learn how the shape of the Pine Cone is optically similar to the Human Heart, why we are awe struck when we view sacred architecture like the Parthenon, why we are attracted to the proportions of the famous Mona Lisa. Essentially, the human body is in resonance with the Living Mathematics of Nature.

A day for exploring the hidden mysteries within the 5 Platonic Solids and the 13 Archimedean Solids. What is the importance of the Star Tetrahedron (the 3-Dimensional version of the Star of David) having 24 faces and 24 edges? How does this link to the 24 edges of the Cuboctahedron, the compressible and alchemical shape that was revered by Buckminster Fuller (who designed the first geodesic domes).

A lesson in x-raying the Fibonacci Sequence : 0, 1, 1, 2, 3, 5, 8, 13, 21, 34, 55, 89, 144 etc to discover where the infinite phi expression has its underlying rhythm, a distinct periodicity of 24 recurring digits that can not be seen by the Western Mathematical Eye but only by the Truth of Vortex Mathematics expressed as Vedic Mathematics! (Really this Knowledge predates the Vedas and Atlantis and is better referred to as Galactic Mathematics).

This material shakes the whole foundations of the current Western mathematics curriculum, will rewrite our current world view on Mathematics and will require a new definition of the Golden Mean: that its decimal does carry on infinitely but within its infinity there is recursive or self-similar beauty. Scientists like Marco Rodin wind toroidal coils in sync with this recursion or rhythm or pulse or pattern of 24 digits to get more output than their input! The sum of these 24 digits is 108 (108 degrees being the external angles of the pentagram and the number of beads in a rosary). During this day you will discover secret codes which are sonically disguised as the **GAYATRI MANTRA**, the most famous Eastern prayer for Enlightenment.

MatheMagics for Teens:

In this program, young students (from 12 years) will learn how to accomplish rapid calculations... mentally.

Jain gives opportunity to grasp an understanding of the 16 basic Sutras or 'Word Formula'. This ancient knowledge can solve all known mathematical problems by using an ancient simple system of MENTAL ONE LINE ARITHMETIC, used by Hindus over 2,500 years ago.

Cost:

The Universal Formula for Life: **\$150 for 1 day**

Lost Secrets of the PHI Code: **\$150 for 1 day**

EARLY BIRD: Discount \$20 per day when registering before 10th June 2004. Also \$20 discount when registering for both days.

MatheMagics for Teens: **\$95 for 1 day**

Booking essential
